FOREIGN AGRICULTURAL TRADE OF THE UNITED STATES, FISCAL YEAR 1996
SUPPLEMENT. Commercial Agriculture Division, Economic Research Service, U.S.
Department of Agriculture.

ABSTRACT

This statistical reference summarizes current and historical data on U.S. foreign trade in agricultural products. Tables highlight commodity and country information, including values, quantities, principal markets for agricultural exports, and import sources.

Note to Subscribers

Monthly export and import data are available electronically on the ERS Home Page and the CALL-ERS/NASS electronic bulletin board. The Internet address is <http://www.econ.ag.gov/> The data files are spreadsheets with the WK1 extension. The files are located under Products and Services-ERS Publications-U.S. Agricultural Trade-U.S. Agricultural Trade Update.

To access the bulletin board, set your communications software to 9600 (or lower) baud, N-8-1, and dial 1-800-821-6229, or 1-202-219-0377. Log on as a new user and follow the instructions. The tables are self-extracting archives which are decompressed by typing the file name at the command prompt.

SPECIAL NOTICE

This statistical report presents tables showing current and historical data on U.S. foreign trade in agricultural products. Commodity and country information is for the most recent 2-year period. Statistics for fiscal year 1996 are preliminary.

U.S. foreign agricultural trade statistics in this report were derived from official data released by the Bureau of the Census. Agricultural commodities are defined as (1) nonmarine food products and (2) other products of agriculture, including fibers, raw hides and skins, fats and oils, and beer and wine, which have not passed through complex processes of manufacture. Such manufactured products as textiles, leather, boots and shoes, cigarettes, naval stores, forestry products, and distilled alcoholic beverages are not considered agricultural.

The trade statistics exclude shipments between the 50 States and Puerto Rico, between the 50 States and the island possessions, between Puerto Rico and the island possessions, among the island possessions, and in-transit through the United States from one foreign country to another when documented as such by the U.S. Customs Service.

Trade statistics for selected nonagricultural products, including fertilizer, fish, agricultural chemicals, farm machinery, and manufactured tobacco, are presented at the end of the commodity group tables.

Exports

Export data include "exports of domestic merchandise," defined as commodities grown, produced, or manufactured in the United States, and commodities of foreign origin that have been changed from the form in which they were imported. The export value is generally equivalent to a free-alongside-ship (f.a.s.) value at the U.S. port of export, based on the transaction price and including inland transportation, insurance, and other costs. Agricultural exports have been adjusted for transshipments through Canada based on information provided by the Federal Grain Inspection Service. More than 500 revisions have been incorporated into the 1995 and 1996 tables.

Imports

Import data are "imports for consumption," which include entries for immediate consumption and withdrawals from bonded Customs warehouses. The import value is defined as the "Customs value," based on the foreign market value, export value, or constructed value, and excludes import duties, freight, insurance, and other charges incurred in moving the commodity to the U.S. port.

Note to Subscribers

Beginning January 1997, the subscriptions for the *U.S. Agricultural Trade Update* and the *Foreign Agricultural Trade of the United States (FATUS)* were combined into one subscription. ERS no longer publishes the quarterly issues of FATUS. The FATUS subscription now includes the monthly *Update* and the *FATUS* fiscal and calendar year supplements.

The monthly *Update* is also available on ERS' AutoFAX system. To use this system, call 202-219-1107, using the handset attached to your fax machine, listen for the voice prompts and enter document #16050.

Other methods are available to access *FATUS* data. For additional information, see page 1, note to subscribers.
